

Technical Data	SILICONIZED SNOW PLOW COAT					
	<p>DESCRIPTION: Clear colourless liquid, mild solvent odour</p> <p>USED FOR: TRL-399 is a specialized snow plow coating used to prevent the build up of snow and ice from snow plow blades and other snow removal equipment.</p> <p>ADVANTAGES:</p> <ol style="list-style-type: none"> 1. Reduces Friction 2. Increases Capacity 3. Prevents Piling 4. Easily Applies 5. Protects Against Rust And Corrosion 6. Ready to use 7. Does not wash off 8. Insoluble in water. <p>DIRECTIONS: Snow Plows: Apply with hand sprayer, paint roller, or brush. Apply before a snow removal period. If re-applied at the end of each work period, the equipment will be protected from rust and corrosion during a time of inactivity, and be ready to go when next required. A special rust and corrosion inhibitor is a part of the formula. Plow may be used immediately after application, if time permits, a drying time of 20-40 minutes is recommended. Re-apply as required. Always apply to clean surface.</p>
